

Fepatex FM25

SEMI-AUTOMATIC PNEUMATIC EYELET MACHINE

The Fepatex FM25 is a professional standard mid-range pneumatic eyelet machine which is ideal for larger scale factories. It can be used to set round metal industrial curtain and banner eyelets. As a semi-automatic model, it requires much less input from the operator than manual equivalents. It also effectively cuts and installs the eyelets in a single action, increasing productivity to up to 250 eyelets per hour.

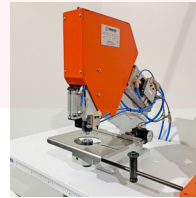

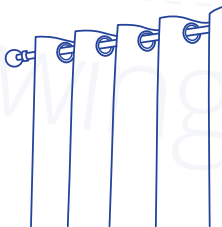

This model is suitable for use with various different materials. It easily handles heavy fabrics such as canvas and PVC, but can also be adjusted for working with delicate materials.

SPECIFICATIONS

AIR PRESSURE	6 BAR (regulated)
EYELET INSERTION SPEED	Approx. 200-250 per hour
FEEDING	Manual
OPERATION	Foot (pedal)
